How does KLEADE company guarantee service quality

KLEADER has been deeply engaged in multimedia field for more than ten years, the business scope covers commercial activities, software and video customized, art installations, outdoor interactive equipment etc. It serves more than 400 customers every year, and the customer Rebuy rate is as high as 40%. Many of the projects we designed have been in operation for three or four years. Some customers have been using our products for eight or nine years and have always trusted our products and our after-sales service. We have always believed that making money is the foundation of enterprise, but more importantly taking responsibility for society and employees is always in mind. I think that is so called entrepreneur-spirit, if you make a real effort to improve social efficiency, the Jesus God will naturally favor you and make you benefit a lot.

Its own exhibition hall, over 200 square meters, which contains multimedia equipment that worth millions dollars, having been regard as the leader of multimedia exhibition hall in central china for a decade.
